Carlos Augusto Moreira Júnior. Professor Titular de Oftalmologia - Universidade Federal do Paraná - UFPR, Curitiba, PR, Brasil. moreiraretina@gmail.com

We began 2016 by focusing on the subject of uveitis. Dr. Heloisa Nascimento, head of the uveitis service of UNIFESP, took up the subject at our request. She prepared a comprehensive review, comprising more than 40 pages, figures, and photographs. This review will be invaluable for novice ophthalmologists and colleagues with more experience in the subject, enabling them to review concepts and gain access to the most up-to-date information on the subject.

For this reason, we, at e-oftalmo.cbo, are inviting you to review the topic, browse through our web pages, and gain a better understanding of the diagnostic and therapeutic aspects of uveitis.

Furthermore, we remind any colleagues intending to contribute to our electronic journal that you should follow the guidelines for authors on our website, when directly sending your submissions to the journal's website.

We look forward to receiving your contributions to the newest indexed journal in Brazilian ophthalmology.

Wishing you a happy 2016,

Carlos Moreira Jr.
Editor-in-Chief
